🛠 SKILLS

- HTML
- CSS
- Java Script
- Bootstrap
- Python
- MySQL
- Django

🎯 OBJECTIVE

As a full stack developer, my objective is to leverage my technical skills, adaptability, and passion for building robust and user-friendly applications to contribute to the success of a forward-thinking organization. By combining my expertise in front-end and back-end development, I aim to create innovative solutions that drive business objectives, enhance user experiences, and push the boundaries of software development.
